

## Where Did We Go?

Avant

Cell phone, internet, facebook  
Whats next?  
In this digital world  
twitter, ipad, email instant messages  
So much going on  
When we eat we don't speak at the table  
Its falling apart it's too unstable  
It's just a shame I'm going insane trying remain  
continue to flame  
But I need to know  
Where did we go

When I did try everything in my heart for us to get  
through this  
How would I know  
That you would just walk away and leave me with these  
words you said  
Its hard for me to handle it I don't feel relevant  
anymore  
Im feeling like im losing it I don't want to deal with  
this anymore  
Where did we go?

Stress it reflects it in our faces hearts beat a  
different paces  
Im losing stability and wheres the humility that we  
once had  
Hey  
Laying here looking up at the ceiling  
Thinking what happened to all of our feelings  
Affection is gone direction is going house is full but  
no one is home  
Where did we go?

When I did try everything in my heart for us to get  
through this  
How would I know  
That you would just walk away and leave me with these  
words you said  
Its hard for me to handle it I don't feel relevant  
anymore

Im feeling like im losing it I don't want to deal with  
this anymore  
Where did we go?

How did you fell out of love with me babe  
And wouldn't throw away the time we put in  
Why does it feel like its going away  
Love is on a rope and its slippin  
The first time that you caught my eye  
You was something that I couldn't pass by  
Never wanted you to leave my eye  
All I wanna know is  
Where did we go?

When I did try everything in my heart for us to get

through this  
How would I know  
That you would just walk away and leave me with these  
words you said  
Its hard for me to handle it I don't feel relevant  
anymore  
Im feeling like im losing it I don't want to deal with  
this anymore  
Where did we go?

How did you fell out of love with me babe?  
Where did we go?  
Why does it feel like its going away?  
How would I know?  
How did you fell out of love with me babe?  
Why does it feel like its going away?
