

Heart

Avantasia

Don't we all keep moving on
As we try to spell forevermore
I have been searching, where I was told
Didn't find myself around the bend

Oh I tried to run forevermore
In a lonely charade

Back on my way
Hot on the trail again
Afraid of moving closer to my heart
I would always do anything
Always tried to believe I can
I was burning down inside to play my part

Are we meant to feel ok
As we stray in someone else's dream?
Burning with honour and pride ~ for glory and fame
The duty of love is not to faint along the way

Oh I tried to run forever
In a lonely charade

Back on my way
Hot on the trail again
Afraid of moving closer to my heart
I would always do anything
Always tried to believe I can
I was burning down inside to play my part

[solo]

Back on my way
Hot on the trail again
Afraid of moving closer to my heart

Back on my way
Hot on the trail again
Afraid of moving closer to my heart
I would always do anything
Always tried to believe I can
I was burning down inside to play my part
