

## Danger Line

Avenged Sevenfold

My 16 locked and loaded  
All fear has been avoided  
You say the words and my weapon is drawn  
This one could be my last time  
Some people call it war crime  
I may be staring out of either side

Nothing shocks you like a bullet hole  
Leaving my fear on the danger line  
Suffering a man should never know  
Leaving my faith on the danger line

I do this for my family  
My daughter loves her daddy  
Too many talk down on things they don't know  
With colors never faded  
Reckless and unavaded  
They may take me but they won't take us all.

Nothing shocks you like a bullet hole  
Leaving my fear on the danger line  
Suffering a man should never know  
Leaving my faith on the danger line

I know what you're thinking  
I've been there before  
So think of the times  
The time we spent laughing away  
So think of the times  
And hope

Now I find myself in my own blood  
The damage done is far beyond repair  
I never put my faith in up above  
But now I'm hoping someone's there

I never meant to leave this world alone  
I never meant to hurt the ones who cared  
And all this time I thought we'd just grow old  
You know, no one said its fair  
Tell my baby girl that its alright  
I've sung my last song today  
We're not alone  
Don't leave this light on for me  
I'm free
