

## Fermi Paradox

Avenged Sevenfold

Lights paint the windows in the sky  
The past is sewn  
In pursuit our spirit shown  
But for now there's no one home

Heavens work on borrowed time  
(walk alone)  
Empty pages burn forever mine  
(walk alone)  
Masquerade us upon high  
(walk alone)  
All we are is all we've left behind  
My sweet Medusa, reflect the empty in our behind  
Snakes born of fire conjure the demons in our dreams

In void we illustrate our lives  
Emerge in small  
Heed the sign meant to evolve  
To the end we send the call

Heavens work on borrowed time  
(walk alone)  
Empty pages burn forever mine  
(walk alone)  
Masquerade us upon high  
(walk alone)  
All we are is all we've left behind

Where children shiver in the cold  
The sun will shine  
Just a touch to heal the blind  
In ourselves we hope to find

Heavens work on borrowed time  
(walk alone)  
Empty pages burn forever mine  
(walk alone)  
Masquerade us upon high  
(walk alone)  
All we are is all we've left behind

Alone
