

# God Hates Us

Avenged Sevenfold

Total nightmare, total nightmare

You wanna hear my side?  
You need to drown to know  
With all the times it hurt me to fuck you  
I built a wall with your blood to show

God save us, God save us all  
God hates us, God hates us all  
Total nightmare, total nightmare

Nothing to heal, no one to wreck  
Feel sad or roll now, there is nothing to tell  
Nothing drawn, no one to fake  
You'll find out sooner that it's just best if we just know our  
place

My infiltrated mind, my lacerated soul  
You took me years, create me, control you  
I let myself around with you aside

God save us, God save us all  
God hates us, God hates us all  
Total nightmare, total nightmare

Armed, rape, kill  
Love, hate, fear

You better take your time  
(Armed, rape, kill)  
You better take it slow  
'Cause when you see the one  
(Love, hate, fear)  
There is nothing left to show

Total nightmare, total nightmare  
Total nightmare, total nightmare
