

Just Keep Dancing

Avenue D

Sex on the beach, sex in the city
Working my thighs till theyre burnt and pretty
Up, down, in, out
Going through boys like a talent scout
Revolving door, Im getting bored
Drinks are as cheap as a two dollar whore
Sick of this scene, fuck the routine
No matter how hard you scrub itll never come clean

Just keep Dancing (keep going and going and going and going)
Just keep Dancing (keep going and going and going and going)
Just keep Dancing (keep going and going and going and going)
Just keep Dancing (keep going and going and going and going)

What do we do? Where do we go?
Is there anyone left to get to know?
Are we going to a place Iíve never been?
Do you know any people who are genuine?
Read me a story Sing me a song
Dont let me worry that everythings wrong
Gonna give yourself a heart attack
Youre so damn busy but you dont do jack.

Just keep Dancing (keep going and going and going and going)
Just keep Dancing (keep going and going and going and going)
Just keep Dancing (keep going and going and going and going)
Just keep Dancing (keep going and going and going and going)

Please, somebody get her away
Shes talking too much with nothing to say
Dont want to hear about whos in the dos
How many people could you feed with those shoes?
Here comes another one kiss, kiss
Shes screaming that the partys so A-list
Sweetie, Baby, love you, mean it,
Been there, done that, heard it, seen it

Just keep Dancing (keep going and going and going and going)
Just keep Dancing (keep going and going and going and going)
Just keep Dancing (keep going and going and going and going)
Just keep Dancing (keep going and going and going and going)

Quick, somebody, pour me a drink
Make it a double, I dont want to think
Lets get fucked up just one more night
If we keep on dancing, everythings alright
Is that all there is?
Same old night, different jizz
If you close your eyes, does it go away?
Will God make it better if you start to pray?
