

# When We Get Down To It

Average White Band

Funny how, I was there at the beginning  
But you never heard my cry  
Reaching out to the ones, who were not giving  
They were never on your side  
When we get down to it  
You were meant for me  
When we get proud to it babe  
You're gonna want the world to see  
When we get down to it  
Nothing else but love will do  
When we get round to it babe  
I want to be down, get down with you girl  
Ooh deep down with you  
When we get round to it  
Can't you see all the chances we've been missing  
All the nights that passed us by, baby  
Now we're alone, your lips are mine for kissing  
No time to wrestle with your pride  
When we get down to it  
You were meant for me  
When we get proud to it babe  
You're gonna want the world to see  
When we get down to it  
Nothing else but love will do  
When we get proud to it babe  
I want to get down, get down with you girl  
Oh baby  
Oh, it's no ordinary thing that we share  
What you give to me, girl  
Oh, there's no reason, we should try to hide it  
Take love as you find it, ooh  
When we get down to it, oh darling  
You were meant for me  
When we get proud to it, babe  
I want the whole wide world to see  
When we get round to it  
Nothing but love will do  
When we get round to it, baby  
I want to be down with you  
When we get down to it
