

# Survive

Avery Watts

You walk among the blind  
With your future undefined  
You stare as history repeats

But go into your mind  
And try to find  
What leads you to your destiny

Here we stand, for all time  
Together we'll defy the darkest nights  
So take my hand, hold on tight  
We'll never die  
You know we will survive  
WE WILL SURVIVE

The battle has begun  
Will you stand and overcome  
Or be shot down by self-defeat

Riding on the line  
You'll choose a side  
And we will see your victory
