

# First Love

Avery

When we were together  
It was perfect  
I remember our first kiss  
When we first met  
All the times we had together  
Never compared u w/ other guys  
Until i saw  
U were full of liez  
When u told me u were busy  
U were out smokin weed  
But i still believed  
U had everything i did need  
I thought i knew everything about u  
U were my best friend  
But even the greatest things  
Have to come to an end

U were my first love  
U were my true love  
The one no one could  
Rise above  
So i just closed my eyes  
And looked the other way  
Just to hold onto u  
One more day

So i spent my nights crying  
'cause i was so scared  
Where had u gone  
Why had u dissapered?  
I didn't know  
That having company  
Could still make someone  
Feel this lonely  
And i wanted to hold you  
And say it was ok  
That i'd be there  
Everyday  
And that u could go out  
And do as u please  
U had me on a leash  
I'd beg on my knees

ALL BECAUSE

U were my first love  
U were my true love  
The one no one could  
Rise above  
So i just closed my eyes  
And looked the other way  
Just to hold onto u  
One more day

I will always love u  
Unless u say not to  
Then i'll try to fight it

Try to hide it  
Because i'm so devoted 2 u
