

Constellations

Aviators

Lights go out
The sun goes down
I stand and
Turn around
And watch the
Stars above me
Time goes by
I fall apart
Things come and go
And try to break my heart
I'm trapped and
I can't seem to break free
We're all fighting to find the truth
With determination
I'll fill the void between me and you
Looking up I will depart
I'll spread my wings so take my heart
To the constellations and make my dreams come true
Take me back
To where I once was
Turn on the lights
In the sky above
I'm lost in the
Bitter darkness
I can't breathe
In your atmosphere
Where have I gone
And how did I get here
I'm trying but I can't escape this
