

# Rock The World

Aviators

Here we're running on empty down this road  
We're hanging on and we can't let go  
We're leaving the world we know behind  
Leaving the real life out of mind

And where we're going  
We will find harmony  
Tonight we're in a  
Fictional reality  
So let's get started  
Our time has just begun  
Here we'll discover  
We're not the only ones

Oh, don't let it go  
Don't let this moment pass you by  
Stop, just let it flow  
We're here to stay we're gonna rock the world tonight

Now welcome to the place we call a common ground  
This is the place where hope is found  
Give yourself a chance to let things go  
And let your true techni-colors show

And where we're going  
We will find harmony  
Tonight we're in a  
Fictional reality  
So let's get started  
Our time has just begun  
Here we'll discover  
We're not the only ones

Oh, don't let it go  
Don't let this moment pass you by  
Stop, just let it flow  
We're here to stay we're gonna rock the world tonight

Now it's our time  
We're going to watch the stars align  
Hold on tight  
We're gonna rock the world tonight  
So let's forget about them  
Let's only think about us  
Now if you take just a step  
Oh you'll start running for once  
If this is all we've got  
Then we can make it the best  
Let's take the good times  
And forget all the rest

Oh, don't let it go  
Don't let this moment pass you by  
Stop, just let it flow  
We're here to stay we're gonna rock the world tonight
