

Storm

Aviators

Stuck for now
I don't know how
To get out of this alive
The rain is falling
And I hear you calling
You help me fight the war inside

And oh, I've been struggling for so long
But the winds are getting strong
And I can't pull through this alone
The thunder grows loud
And I know you can get me out
You can get me through this storm

The lighting strikes again
I can feel you pull me in
To your arms
Will you protect me, will you save me?
Will you be there for me?
When I'm in the way of harm

And oh, I've been struggling for so long
But the winds are getting strong
And I can't pull through this alone
The thunder grows loud
And I know you can get me out
You can get me through this storm

I'm not going on my own anymore
Save me from danger, from the storm
I'm so afraid of what's happening
But when I hear your voice, it's so comforting
I know you'll be my shelter in this storm

And oh, I've been struggling for so long
But the winds are getting strong
And I can't pull through this alone
The thunder grows loud
And I know you can get me out
You can get me through this storm
You can get me through this storm
