

# The Last Page

Aviators

Remember the days  
When we used to be  
An unstoppable pair  
Or so it would seem  
You were the world to me  
The universe in our hands  
All of time to kill  
We'd win our wars  
We'd have our thrills  
There's so much I wanted you to see

Farewell, we've made it so far  
You've got to leave, and it's breaking my heart  
After all we've been through  
I never thought I'd say goodbye to you  
If our story has come to an end  
I hope you'll remember me as your friend  
I never wanted things to change  
But here we are on the last page

Adventures we had  
Memories we shared  
How I would protect you when you were scared  
I'd do anything for you  
Wondering why  
This has to be  
The end of the story of you and me  
I don't want to face the truth

Farewell, we've made it so far  
You've got to leave, and it's breaking my heart  
After all we've been through  
I never thought I'd say goodbye to you  
If our story has come to an end  
I hope you'll remember me as your friend  
I never wanted things to change  
But here we are on the last page

If this can't last forever  
If we can't be together  
I promise I'll never forget you  
The way we owned the skies  
The way we ruled all of time  
If only we could live like we used to  
(We used to love)

Farewell, we've made it so far  
You've got to leave, and it's breaking my heart  
After all we've been through  
I never thought I'd say goodbye to you  
If our story has come to an end  
I hope you'll remember me as your friend  
I never wanted things to change  
But here we are on the last page
