Skin Deep (Adderall)

In deep and I don't have the heart to tell you I lost sleep, I'll find time and I'll compel you You might need a second chance or a better man than me As far as I can throw you was as far as I can see And all your friends are coming down like adderall And after all it's all after the fall

I'm ready to tell you I'm all undone I'm right here, I'm waiting to run Why can't we fight ourselves To break someone

Skin deep and I don't have the guts to tell you Sharp teeth, yeah that's my life when I'm around you You might need a second chance or a better man than me As far as I can tell you never stop to wait for me Just tell your friends you're coming down like adderall And after all it's all after the fall

I'm ready to tell you I'm all undone I'm right here, I'm waiting to run Why can't we fight ourselves To break someone

A little bit of time in this disaster Pick up the pieces and take the last word All this time and I thought I could be real, but no A little bit of time in this disaster Pick up the pieces and take the last word All this time and I thought I could be

I'm ready to tell you I'm all undone I'm right here, I'm waiting to run Why can't we fight ourselves To break someone All your friends are coming down like adderall I'm ready to tell you I'm all undone I'm right here, I'm waiting To break someone

To break someone I don't have the heart to tell you To break someone **Avion Roe**
