

# Take It

Avril Lavigne

Just take it take it  
I can't take it take  
I know what you do  
Flash me  
The ways it's done  
Impolitely  
Trying to find some alone time  
No room to compromise

Just take it take it  
I can't take it take it

Send your picture to a magazine  
The page is not true  
Photography  
Is that what you always wanted to be  
I'd be worried for you  
Sometimes  
Gonna try  
Run and hide  
Get away from this  
I'll get by  
In this life  
This time

Take your best shot  
And press me  
Write a fictional story  
For your fee  
Try to get the world  
To believe  
Shocking headline surprise

Just take it take it  
I can't take it take it

Is that what you always wanted to be  
I'd be sorry for you  
Sometimes  
Gonna try  
Run and hide  
Get away from this  
I'll get by  
In this life  
This time

You see me  
I see you  
You're over there  
You see me  
I see you

Is that what you always wanted to be  
Well I'd be sorry for you

Sometimes

Gotta try to  
Run and hide  
Get away from shit

Sometimes

Gonna try  
Run and hide  
Get away from this
