## **Two Rivers**

**Avril Lavigne** 

Grains of sand slip through your hands Never ceasing time Fold your hands in silent prayer Eternal peace you'll find

Like two rivers flow To the open sea Someday we'll reunite For all eternity

Let the rain falling on your face Run in to your eyes Can you see the rainbow now Through the stormy skies

Like two rivers flow To the open sea Someday we'll reunite For all eternity

Like two rivers flow To the open sea Someday we'll reunite For all eternity

Standing in the rising tide Heaven's light shines on you On you, on you

Test the sea rising at your feet How far can you go Til you need God's helping hand To ride the under-toe

Like two rivers flow To the open sea Someday we'll reunite For all eternity

Someday we'll reunite For all eternity

Someday we'll reunite For all eternity
