Scatophagy  
The art of eating shit  
Is the ultimate  
Form of nourishment

Countless ways - of feeding on  
With costless resources  
Like vegans - and vegetarians  
Just another philosophy  
Eat no meat - not even plants  
Careful with environment  
There's no waste - no useless scraps  
Recycling every single bit

Coprotherapy  
Coprotherapy

As many tastes - as species  
Inhabit on planet earth  
Even urine - could be used  
To digest a hard piece of dung  
A healthy diet - an endless mine  
Of incalculable proportions  
The solution - to famine  
Is right on everybody's ass

Coprotherapy  
Coprotherapy

Drinking from the drunk  
Eating from the eaten  
Your intestine is your stock  
With always warmy food

Your sphincter does control  
Your daily dose of pooh  
Your fucking tiresome piles  
Tells you when's the time

Why this society  
Respect vegetarians  
And coprophagists  
Are considered pigs  
When will be the day  
When we equally compare  
Those who taste the shit  
To those who don't eat meat
