This is who you are  
this is who you are  
this is who you are  
this is who you are

Ohh, ohh

Sit back and look for the warnings  
the futures bright and alarming  
sit back and look for the warnings

Sit back and look for the warnings  
the futures bright and alarming  
sit back and look for the warnings

Cool

Woo

Huh

Cool

Oh

They be walking around ya  
with your head cut off

They be walking around ya  
with your head cut off

They be walking around ya  
with your head cut off

They be walking around ya  
with your head cut off

Their power's fear and it surrounds me  
there are signs you can see  
one day we will wake the walking zombies  
til then we pray

Everybody, everybody

The king and his ghost are laughing at me  
these signs you can see  
one day we will listen for the sirens  
'til then we pray

Skeletons march  
A army guns  
Drop your feet  
I'm scared  
I'm duke Ellington  
My mother said there'd be things like this  
But one of the fires lit made her piss

Crawling are zombies all up inside me  
Transforming vampires right beside me  
And you can't run  
Cuz u do, you'll be dead  
And the walls can't roll from the side of my head

I beat the drool  
I beat the ghouls  
But his last kiss all suckers  
They will cease to exist  
I can't entertain what it'd be to be human  
Lay waste to cities leave towns in ruin  
I. Am. A. Ro. Bot.

Whole arsenal stock ready to blow

Lastly, you see my by 3 by 3  
Firing these things called TNT

These things called TNT  
These things called TNT  
They call me TNT  
These things called TNT

Ahh, ahh, ahh, ahh

Aw,  
We can dance like the world's over  
Yeah it's almost 2012 call your girls over  
Let's kick back, pop shots, have a ball  
And if the world blow up, next life we'll do it all over

Ah Yeah,  
Let's toast to the memory  
I wrote my name in the sky  
So remember me  
Baby forever we  
Together we'll ...  
I'll leave my baby over something  
Then hell'll freeze  
Froze.  
This world cold like Natalie  
So  
Let's lose our clothes like Adam, Eve  
Back to the basics  
Step out the matrix  
Step out your cool baby

Get on my spaceship

I've seen her face lit  
She seen the sound like a basin  
So ran home like a base hit  
Safe!  
Life is whatever you think it is  
So whatchoo think this is?

Oh, ah, ah  
Oh, ah, ah

Aw  
Yeah it's all in your mind baby  
You gotta do what you feel like ...  
You gotta spread your wings and just fly baby  
You feel like you're reborn?  
That's my baby  
Says she feel it in her soul like a vibrator  
I got some things for your thoughts  
We can try later  
Let's hit the dancefloor  
Right before we outa town  
And just party like it's 1999

You know what prince said  
Girl, you my princess  
I got the glass slipper  
I hope the thing fit

Your body on fire  
Let me extinguish  
hop on this white horse  
Ride to the sunset
