

# Power

Axehammer

Look inside yourself  
You might find something you like  
Take your dreams above the horizon  
And you shall see

A curse that runs very deep  
To a rainbow with no gold  
Fly high my child  
For you may be the next king

Can you feel it, really feel it  
Feel the power yeah yeah  
Can you feel it, really feel it  
Feel the power hell yeah

Warriors to fight for you  
To put you in the throne  
No one can hurt you  
You will never be alone

Time is on our side  
Before the break of dawn  
The spirit in my soul  
Feels like it is gone

Can you feel it, really feel it  
Feel the power yeah yeah  
Can you feel it, really feel it  
Feel the power hell yeah

Can you feel it, really feel it  
Feel the power yeah yeah  
Can you feel it, really feel it  
Feel the power hell yeah

Lines in the sand behind you  
You can't see  
Move to the light of being  
Without me

Control the madness  
That takes my mind  
Search yourself again  
And you will find

Can you feel it, really feel it  
Feel the power yeah yeah  
Can you feel it, really feel it  
Feel the power hell yeah

Oh Oh Oh Oh  
Can you feel it  
Oh Oh Oh Oh  
Can you feel it  
Oh Oh Oh Oh  
Can you feel it  
Oh Oh Oh Oh

Can you feel it
