

## Changing Times

Axel Rudi Pell

On the loose, but hearin' gunfire  
To time to cruise, leaving for our destiny  
Cold hearted city, don't wanna stay  
Undeserving of pity, better get out our way

Out of the dark and into the light  
Moving shadows, full moon on the rise

I wanna know, where we have to go  
A thunderous roar, we're changing times  
I wanna know, where we have to go  
A thunderous roar, we're changing times

In a different time, a cry for solutions  
Fallin' out of the sky, losing control  
All roots of evil, appearing at once  
Don't dance with the devil, cause you'll have no chance
