

# Cold Heaven

Axel Rudi Pell

You call yourself a lady  
With innocent eyes  
But your mind drive's me crazy  
A devil in disguise  
Burnin' nights of passion  
Lasting from dusk till dawn  
Falling in and out of romance  
Forever on and on

The heart of the moment's hiding your cold  
Hearted lies  
Inordinate torment  
A waste of time

Cold heaven  
Feels like hell  
You're heart's like a stone  
Cold heaven  
Nothing more to tell  
Better leave you alone

I used to be your romeo  
Your master of sin  
But you behave like a gambler  
Playing games you can't win  
Extinguish the fire  
Been blinded by the flame  
But there's no more desire  
Don't want to feel your pain

The heart of the moment's hiding your cold  
Hearted lies  
Inordinate torment  
A waste of time

Cold heaven  
Feels like hell  
You're heart's like a stone (You drive me insane)  
Cold heaven  
Nothing more to tell  
Better leave you alone (Love's not a game)
