

## Forever Angel (acoustic)

Axel Rudi Pell

You were born on judgement day  
But you don't care and go your own way  
Your living your life and you made your own laws  
Fellowship forever, your freeing your souls

Riding with the brothers  
Through the wind and the rain  
You're proud of your color  
And can feel no pain

Forever angel  
Keep on riding  
And fight for your rights  
Forever angel  
Roaring thunder  
Through endless nights

Sometimes it seems that you're dancing with the devil  
And you recognize that the price for freedom is high  
The brotherhood in your life is your highest call  
You the chosen ones, all for one and for all
