Gettin' Dangerous

Axel Rudi Pell

Take what u want, if all's what u need
well, that was a thing of the past.
yours 4 the night & all the next day
but u know all good things never last

All the evils u once saw as joy
have finally caught up 2 u.
others misfortunes are lessons we've learned
it's hight time we know what 2 do...

It's gettin' dangerous
the world's going under as we fall
it's gettin' dangerous
it's time 2 decide when our fate calls

Y does the rain cry on our souls
while bloodshed takes over the streets?
y does the night decide not 2 end
when 2morrow is now what we need?

Do u remember a simpler time
when dreamers could follow their dreams?
it's so plain 2 see that we've drifted so far
it's not how it once used 2 be...

It's getting' dangerous
the further we go now the deeper we burn
it's gettin' dangerous
if u don't give a damn the world ceases 2 return.
