

# Hole in the Sky

Axel Rudi Pell

Deep in the night, the silent screaming is  
callin out 2 u  
disaster is heading your way, u just don't know.  
how could we see the crimson spiral would  
penetrate the blue  
the heavens above present an afterglow.

Now how could we all take  
take 4 granted the great beyond?

How will we survive, oh, how will we carry on?  
hole in the sky, don't trust your shadow  
hole in the sky, it's only fantasy  
hole in the sky, there's nowhere left 2 go  
hole in the sky, no chance 4 u & me

Factory waste dissolves in the air  
blue skies are turnin' black,  
the burn in your eyes are reflections of what  
is 2 come.

Some just don't know, but most just don't care  
until it is all just 2 late  
the ozone is crying 4 mercy from everyone
