I Believe in You

Axel Rudi Pell

Put a spell on you Runnin' through your veins Don't give up you fool Don't cry in the rain

Burnin' fever
Is drivin' you insane
All of your life you have tried
To follow your dreams

Don't turn back and run away There'll be no regrets, no way Don't turn back and run away I need you here please stay

I believe in you
Don't give up you fool
I believe in you
Don't break down the rule
I believe in you
Don't give up you fool
I believe in you
Don't break that rule

With your back to the wall You were lost out in the cold world All the feelings are gone They were just fading away

So you realize that there'll be soon A new tomorrow You're casting the spell Which will free you from your dreams
