

# Lived Our Lives Before

Axel Rudi Pell

A long time ago there lived a man  
He was searching for an answer  
He had seen it all, faces in the mirror  
Alone in that room made him shiver

Burning candles, seeing shadows in the night  
Bringing back memories in mystical light  
Holy spirit in an unholy night  
Enlightenments never felt so right

We don't know  
If we Lived our Lives Before  
Is it a dream or just a fantasy  
We don't know  
If we Lived our Lives Before  
Is it a dream or just a fantasy  
Fantasy

On his journey learning all about life  
He was dreaming of the past  
Praying day and night, looking for a solution  
But in the end there's only confusion

Burning candles, seeing shadows in the night  
Bringing back memories in mystical light  
Holy spirit in an unholy night  
Enlightenments never felt so right

We don't know  
If we Lived our Lives Before  
Is it a dream or just a fantasy  
We don't know  
If we Lived our Lives Before  
Is it a dream or just a fantasy  
Fantasy

We don't know  
If we Lived our Lives Before  
Is it a dream or just a fantasy  
We don't know  
If we Lived our Lives Before  
Is it a dream or just a fantasy

We don't know, oh  
Is it a fantasy or just a dream, yeah  
We Lived Our Lives Before
