Riding on an Arrow

Axel Rudi Pell

We travelling on towards our destination Searching far away to the holy land The closer we got without hesitation The sooner we found out is the world a land

Time is passing on as long we ever here We won't stay long in the garden of fear

Riding on an arrow Flying through the sky Riding on an arrow Flying on so high We're riding through the sky

We fly in circles trusting no one The shadows of the world are fading away Life's in the darkness kept on shining He's trying to tell the wishing tale, Is here to stay?
