

Sailing Away

Axel Rudi Pell

She was the queen of evil
Ridin' on the storm
With the heart of the devil
Will we ever learn

She called the rolling thunder
Cold wind and rain
Tearin' waves from down under
They still can feel the pain

Still a long way to go
They were lost in the zone
Dreamin' of a holy wonder
No time to return

They're ridin' to the tower
On the ship of the lost
Storm made of power
And the hull turned to dust

Sailing away
Into the fire
Sailing away
Lost children of the sea
