

# Silent Angel

Axel Rudi Pell

Rainy days, cold nights to remember  
who wil I find to stay forever  
A life without you, no dreams will come true,  
won't be fooled just like a pretender

A whisper in the garden of Eden  
like a sound of love and peace on earth

Silent Angel I wanna hold you  
Silent Angel in my fantasy  
Silent Angel please stay wth me

All alone with a heart of stone  
candlelight never burns so bright  
how can it be, that between you and me  
is no way out, out of misery
