

Strong As a Rock

Axel Rudi Pell

Looking back at your own
Life lost life, which once was so strong
You ruined your body, toxic indication
Back to the wall, too weak to rock the nation

Looking up to the sun in the sky
To higher places, but I don't wanna die

Strong as a rock
On the edge to the sky
Strong as a rock
See the angels fly
Strong as a rock
The abyss calls out your name
Strong as a rock
It's yourself you have to blame

Seeing faces on the wall
The monkey on your back, cold turkey's coming home
No escape out of this nightmare
Back in rehab, last try of despair
