

Leave the world behind

Axwell

Leave the world behind you !
Leave the world behind you !
yeah !
Leave the world behind you
Leave the world behind you

People, Can U Hear Me ?
Here's a message that I'm sending Now,
I've Got the answer to all your problems,
And tonight I'll be singing it loud

Just surrendering yourself to the rhythm,
With your Hands up in the sky,
Feel the energy deep inside your system
And leave this world behind,

Leave the world behind you
