I could feel the spell tonight
The fiddle plays its magic
It seems to cry, to swell and die
All I hear is tragic

Bridge:

Go dance away all trouble Join me and stay Lets fall into this battle Listen to the fiddle play

Chorus:

Dance into life - the fiddle cries

Dance to survive - the battle of your life

Dance into life - the fiddle cries

All sorrows gone and a new life has begun tonight

Dance for your life

You've lost your love Your luck, your pride And you're feeling lonely Listen to that fiddle tune Played for your ears only

Bridge:

Go dance away all trouble Listen to the fiddle play

Chorus

Solo

Bridge:

Go dance away all trouble Join me and stay Lets fall into this battle Listen to the fiddle play

Chorus:

Dance into life - the fiddle cries

Dance to survive - the battle of your life

Dance into life - the fiddle cries

All sorrows gone and a new life has begun tonight

Dance for your life

Dance for your life, all right
