

# Dance With The Dead

Axxis

And I dance with the dead on their holy night  
Dance with the dead right now  
Dance with the dead right now

I see the screen of fog is rising  
Like a wall surrounding me  
A nightmarish invitation  
to this scary ceremony

There is no door there is no way out  
there's no way out  
I'm on the path of no return  
With no return  
Am I in danger? am I Dreaming? am I dreaming?  
Cold sweat the dead let fires burn

And I Dance with the dead on their holy night  
Let me dance, dance,Aha  
And I Dance with the dead - drive out my fright  
And I Dance with the dead right now  
Dance right now

Lika a dream like an illusion  
Everything is so unreal  
Look in their faces see them laughing  
I could touch them - they are cold as steel  
cold as steel

Behind the fog light's getting brighter  
Behind the fog  
A tunnel fading in this wall  
Way down to hell  
This is the time for a decision- time to decision  
To go or stay, to stand or fall

And I Dance with the dead on their holy night  
Let me dance, dance,Aha  
And I Dance with the dead - drive out my fright  
And I Dance with the dead right now  
Dance right now

dance with the dead on their holy night  
And I dance with the dead right now  
dance with the dead on their holy night  
Let me dance dance Aha  
Let me dance with the dead drive out my fright  
And I dance with the dead right now  
dance with the dead dance
