

## Ecstasy

Axxis

You drag your nails across my back  
I can feel your teeth upon my neck  
I am in ecstasy

You blow my mind - heat me up  
Take my spirit to the top - so high  
I am in ecstasy

We fly...till we die  
We fly...till we die

More than more is not enough  
I need your mind expanding stuff  
To fly...to fly

All my strength - down the drain  
No escape - I tried in vain  
I am in ecstasy

We fly...till we die  
We fly...till we die

In your hand - helplessly  
Sweat and blood - I cannot flee  
On my skin - sweetest pain  
A million needles like burning rain

We fly...till we die  
We fly...till we die
