

Kingdom of the Night

Axxis

Dreaming - dreaming in the cold night
I wish I were a big and famous star
Then I'm the king of a thousand queens
With golden rings and dirty jeans
Pots of money and I'm feeling free
Move your legs- Stamp your feet
Hear my voice you're gonna rock with me
The rhythm leads
The rhythm beats
Feel the beat and find another world
Chorus
Alright - alright
I've got the kingdom of the night
Screaming -screaming in the wild crowd
Let me see you all raise your hands
I wanna dream - dream forever
Never waking up - No, never
Oh, bring back this dream
And let us scream again
Move your legs- Stamp your feet
Hear my voice you're gonna rock with me
The rhythm leads
The rhythm beats
Feel the beat and find another world
Chorus
Alright - alright
I've got the kingdom of the night
