And I dance with the dead on their holy night Dance with the dead right now Dance with the dead right now

I see the screen of fog is rising Like a wall surrounding me A nightmarish invitation To this scary ceremony

There is no door there is no way out
There's no way out
I'm on the path of no return
With no return
Am I in danger 1 am I Dreaming? 1 am I dreaming
Cold sweat the dead let fires burn

And I Dance with the dead on their holy night
Let me dance 1 dance 1 Aha
And I Dance with the dead 1 drive out my fright
And I Dance with the dead right now
Dance right now

Like a dream like an illusion

Everything is so unreal

Look in their faces see them laughing

I could touch them 1 they are cold as steel 1 cold as steel

Behind the fog light's getting brighter
Behind the fog
A tunnel fading in this wall
Way down to hell
This is the time for a decisional time to decision
To go 1 or stay 1 to stand or fall

And I Dance with the dead on their holy night
Let me dance 1 dance 1 Aha
And I Dance with the dead 1 drive out my fright
And I Dance with the dead right now
Dance right now

Dance with the dead on their holy night
And I dance with the dead right now
Dance with the dead on their holy night
Let me dance dance Aha
Let me dance with the dead drive out my fright
And I dance with the dead right now
Dance with the dead dance
