

## Stay Don't Leave Me

Axxis

Time, will show us a better day  
A better day we both could use  
I know there's no other way  
Another way we both would lose  
So here we are, again  
Woman and man  
With our hearts, in hand  
Sinkin' in the sand  
Stay don't leave me, don't turn away  
Love will prove what friend are for  
Stay don't leave me, don't turn away  
Love will prove what friend are for  
What friend are for  
Life, plays like a funnt game  
A twisted rain, falls while we pray  
I believe, we will love again  
And 'till the end we both will stay  
But here we are, again  
Tyrin' to understand  
What went wrong, we long  
Cryin' out our song  
Stay don't leave me, don't turn away  
Love will prove what friend are for  
Stay don't leave me, don't turn away  
Love will prove what friend are for  
What friend are for  
Here we are again  
Woman and man  
With our hearts, we long  
Cryin' out our song  
Stay don't leave me, don't turn away  
Love will prove what friend are for  
Stay don't leave me, don't turn away  
Love will prove what friend are for  
What friend are for
