

# The Monsters Crawl

Axxis

They creep and crawl, they rise and fall  
Spread greed and hate, above you all  
Yes, money rules - feeding my might  
I've managed fools - crisis worldwide  
And you know: I'm your hate, I'm your whore  
I'm building the world you adore.

The monsters crawl - they rise and fall  
Rule our world now and turn it upside down  
The monsters crawl - not anymore  
Break down the world, now, it's rotten to the core!

Greed is my lust [lust, lust]  
My inner drive  
I'll never go bust  
Always revive  
And you're my slave  
My useful half  
So, I'm your pain  
Your lifelong chain  
I always suck your blood and take [eat] your heart  
I'm money-mad - I tear your world apart!

The monsters crawl - they rise and fall  
Rule our world now, and turn it upside down  
The monsters crawl - not anymore  
The world breaks down - let's take the chance now for a better  
time!

You're the plague the modern virus  
You're the pest got deep inside us  
Could we ever stop to bless you  
I don't know why we don't try?!

The monsters crawl - they rise and fall  
Rule our world, now, and turn it upside down  
The monsters crawl - not anymore  
The world breaks down - so take the chance and let the monsters  
die!
