

The Raver

Ayah Marar

I was born to be a raver

Not blinded by the light
Even the strobe in my eyes feels right
Don't wanna miss a single night
My pockets ani't full, don't play by the rules
I'm falling
I get beats but I don't fight
Not like the others I don't incite
I'll never miss a single night
My pockets ain't full, don't play by the rules
It's calling...

I was born to be a raver
And I'll always be a raver
Put your hands I the air
If you were born to be a raver
You were born to be a raver
