The Raver

Ayah Marar

I was born to be a raver

Not blinded by the light Even the strobe in my eyes feels right Don't wanna miss a single night My pockets ani't full, don't play by the rules I'm falling I get beats but I don't fight Not like the others I don't incite I'll never miss a single night My pockets ain't full, don't play by the rules It's calling...

I was born to be a raver And I'll always be a raver Put your hands I the air If you were born to be a raver You were born to be a raver
