

## Angel O'Mine

Aynsley Lister

I can see your face,  
But I know that you're not there  
I can smell your body  
Your scent still lingers in the air

It's been so long  
Since I've held you tight  
Angel o mine  
It's been so long,  
It's been so long  
I wanna hold you tonight

I can hold you hand  
When I close my eyes  
I can feel your body  
I can feel it next,  
Next to mine  
Yes I can  
I can hear you voice  
As you say goodnight  
Angel of mine  
It's been so long,  
It's been so long  
I wanna hold you tonight

You make me feel like  
I never known  
Just for you,  
I got so much love to show  
U came along out of the blue  
I would do anything for you

I'm lying here alone an empty space  
Where you should be  
I know it won't be long  
Till your lying here again with me  
No it won't

It's been so long  
Since I've held you tight  
Angel o mine  
It's been so long,  
It's been so long  
I wanna hold you tonight
