

Teach Love

Ayo

Can you hold me
Hold me tonight
Can you kiss me right there
Before we say goodbye
And let's not say it's over
Until we haven't really tried
I'm sure we could do better
All we need is time

If we teach love, only love
Every heart will open up
If we give love, only love
Life will be much easier
If we teach love, only love
We will see the work of Jah
Every locked door will unlock
Cause love is the key
Love is the key

Let me play your favorite song
With you I jam all night long
You can teach me creole
(Comment il est)
I'll teach you everything you wanna know
And let's not say it's over
For the night's still young
We could dance forever
Or at least till the morning comes

If we teach love, only love
Every heart will open up
If we give love, only love
Life will be much easier
If we teach love, only love
We will see the work of Jah
Every locked door will unlock
Cause love is the key
Love is the key
