No need (5x)No need to feel the pain No need to feel betrayed No need to feel inane No need to feel afraid

Wake me up before I die, hold me close As I gaze upon to the sky, comatose No reason to survive, I suppose Wake us up before we die

No need to feel desire
But I need you with me
No need to feel so small
But I need to feel secure

No need to feel the fire
But I need to feel free
No need to feel at all
But I need to know for sure

Wake me up before I die, hold me close As I gaze upon the sky, comatose No reason to survive, I suppose Wake us up before we die
