

River of Time

Ayreon

Is it too late to prevent their fall?
Are they ready for the key to it all?
The mystery solved, the answer to life
The final solution, a chance to survive

We can save this ill-fated race
Who are lost in the ocean of space
Show them the way to reverse their decline
Guide them back on a river of time

Follow the wave, speed up the flight
Slow down time, faster than light
You might let the forces take a giant leap
And the stream dive into the deep

We can save this ill-fated race
Who are lost in the ocean of space
Show them the way to reverse their decline
Guide them back on a river of time

Send back visions of war and decay.
Paradigms of fear in a world of dismay.
Shape the present, alter the past.
Create a new future, one that would last

We can save this ill-fated race
Who are lost in the ocean of space
Show them the way to reverse their decline
Guide them back on a river of time
