

## That's All I Want

Az Yet

Take it from me  
That you're gonna be in love  
Just give yourself some time  
You're just in a shaky frame of mind  
Take it from me  
That everyone's not that way  
Just out to break your heart  
So baby don't fall apart

I know that it hurts sometimes  
But girl if you let me ride  
I'll make you feel the way you want  
I'll make you feel like you're in love  
Don't want you to compromise  
We can just take our time  
Whatever makes you feel you're loved  
That's all I want

Take it from me  
You're gonna love someone  
I can see it in your eyes  
Somebody's gotta treat you right

Take it from me  
Your life is bound to change  
He'll never, ever break your heart  
You'll never have to feel that pain

You have this tendency to blame things on yourself  
Has it not occurred to you, that it may be someone else  
There is an urgency to change the way you feel  
Well I'm here to make the way for you  
Girl you're not by yourself
