At fifteen my brother told me get them digits  
Told me every penny count nigga hit them tranches  
Don't floss to hard don't burn no riches

Don't trust no bitch if ya doe is heavy  
And don't smoke with her if the blunt rolled already  
No ass betting if you show it you betta blast it  
Math class on the corner yeah I past it

Fuck it throw a fifth of Henny in my casket  
Never got my ass kicked, never had a pitbull

Rum got me hazy chasing this cream  
Fuck a dollar in a dream hundred grams and a thro team

So's reing me up got the hood on clockwork  
Bedstuy nigga you know it's on  
Gotta flow so strong, you could put it in a bomb

When I die, I'm gone go in fashion, guns blasting  
Cash inside coffins, memories get lost when you die  
The legacy is eye for an eye  
But overall I will survive nigga

When I die, I'm gone go in fashion, guns blasting  
Cash inside coffins, memories get lost when you die

Jump out the drop top  
Catch you why you copping at that weed spot  
Speak not you know them bitches be your weak spot  
I'm in the tranches that's where y'all niggas scared to come at

Where all the guns at  
Where my shorties flip them ones at  
That's where my son's at  
You speak of war but you don't want that

We blow your face out, pay the judge to throw the case out

Check the game and the cats that play in it  
Quiet money youngest lieutenant  
Yeah world it's been a minute, I'm in it  
To my heart stop or blood touch the concrete

Beyond deep, these streets got me gripping my heat  
Losing sleep, breaking day sling crack to fiends  
W.D. forty to sixty having backwards dreams  
The cash the cream from the cradle to the casket green

Got the game tied up we the nasties team  
We flash we steam if it's on then we mash your beam  
Yellow tape the sidewalk and leave a nasty scene  
Your back is spling ya brain, face and chest get sprayed

The desert the miss the spot when it bust your way  
We touch we lay in the streets it's a must we play  
We cook, we chop bust pots down and clust the way  
From light to day it's only right that we cock and spray

We speeding on could spot a snake from a block away  
I told you a what the game need is a change of speed  
Visualize the realism  
I'm a dangerous speed

When I die, I'm gone go in fashion, guns blasting

Cash inside coffins, memories get lost when you die  
The legacy is eye for an eye  
But overall I will survive nigga
