I'm in my prime wit a lot on my plate, the party life
Clear my mind when I'm out of the states
Feeling relieved, revived when I'm feeling the breeze
I'm at my best when I'm chilling and I'm feeling at ease
Ladies respect
It's hard when I'm backwards balling, playing the field
And a whole lotta ass be calling, nothing is real
Is it wrong 'cuz I'm doing my thing?, pimping if, either or
But I do what you dream
Follow the leader, I've seen what I needed to see
Leave it to me, and believe I'm not easy to g
Don't even try it, so ladies, all together, let's sing it
I know your needs and your wants
And if you want me to bring it, I gotta hear it

If tonight's the, night then let me know

(AZ) Okay
