

Destroyer

In blood and honour
Hymn to the black god
Rises from the deepest pits of the soul
From the heart of darkness itself
Lucifer! Son of the morning star
The unstoppable force of Satan

To the extreme
Black Metal is war
Destroyer
Black Metal is war

The swords have been sharpened
And the guns are loaded
The blood of the dying priests
Stains black the holy church land
The screams of the raped nuns
Echo to heavens high as they die

We strike gods house to flames
We crush the followers of the impotent god
We burn your holy book of lies
And crucify your whoresheppard

We paint black your places of worship
With your own filthy worm blood
We turn your crosses upside down
And desecrate the altars of Jehovah!
