

# Along the Coast

Azealia Banks

Hey, boy I know you know  
I said, I said, I know you know  
That you make me emotional  
Fill my heart, body, and soul  
It's the push and pull  
Please explain just how you know  
How to make me so vulnerable  
This love is a roller coaster

Along the coast  
Come find me along the coast  
As the raindrops condense and fall  
From above me and right below  
Let your love explode  
Boy please let it overflow  
Don't release me, don't let me go  
'Til the sun rises in the morning

Along the coast  
Come find me along the coast  
Can I watch while you row your boat  
I love the way you stroke it

I know you know  
Boy I said, I know you know  
I'll be missing you until the  
Next time we're along the coast, hey

It's alright for you to touch my ooh  
Hold me tight, you know you feel so good  
Spend the nights under the stars and moon  
Make it last until the afternoon

Dew upon a misty morning breeze  
Set ablazing an entire forest of trees  
That's fine but I need  
How low can you go  
How deep does your love go?  
Let me, let me know  
Make love on the ocean floor

I know you know  
Boy I said, I know you know  
I'll be missing you until the  
Next time we're along the coast, yeah, yeah, yeah
