

Lights

AZIATIX

On set I'm feeling right
Ima show the world tonight
Ready for the lights lights
Ima show the world tonight tonight

Out from the darkness I found my way
Driven from the passion
Lights & cameras flashin'
It's crystal clear now I know why I'm here
Ain't nothing gon let it fade away

Cuz from the cracks from the concrete my soul fiends to break up
Rock bottom now we came up
Cuz mommy your son was born for this
No con artist mom
I pray to God for this
Duty calls, full spin 36, get my game on
Fears turn to heart sweat tears gotta stay strong
Opposite of bogus and notice
I'm never feeling hopeless, look cuz all I know is uh

Can't nobody do this the way I do
Day and night all the lights
Shinin' over me
Even in the darkness I'll make through
It's alright all the lights
Shinin' over me
Oh~ Day and night all the lights shinin' over me
Oh~ It's alright all the lights shinin' over me

See the lights give me the mic
Tonights the night I'm reaching higher heights
New horizon with white air nikes
I jump high so fly shine as i take flight
Man I refuse to die for free
Million dollar man I put my price on freeze
On the dirt while I'm on both knees
Then with the mic make my mark in the dark, all lights on me, me cuz

Can't nobody do this the way I do
Day and night all the lights
Shinin' over me
Even in the darkness I'll make through
It's alright all the lights
Shinin' over me
Oh~ Day and night all the lights shinin' over me
Oh~ It's alright all the lights shinin' over me
Can't nobody do this the way I do
Day and night all the lights
Shinin' over me

Can't nobody take the crown
I call the shots and its going down
I wonder who can ever stop me
Besides God, theres nobody, nobody

Even in the darkness I'll make through

It's alright all the lights
Shinin' over me
Oh~ Day and night all the lights shinin' over me
Oh~ It's alright all the lights shinin' over me
